

New York Stock Market

New York, July 5.—Stocks were under selling pressure almost from the outset of today's session and a considerable part of the early work was done in the selling market.

Lowest prices of the day were registered in the final hour when rumors regarding the copper situation and steel earnings had not yet been fully circulated.

The copper outlook continued most encouraging and advice from all leading railroad reports indicated that traffic conditions were making preparations to meet the larger harvest, this being especially true of Kansas, Oklahoma and Texas.

Bonds were irregular, with no pronounced change.

United States government bonds were unchanged on call.
